Chesapeake Financial Shares, Inc. (CPKF-OTC)

CPKF: Second Quarter EPS Tops Our Estimate

We have chosen the \$31.00 midpoint of the range of values based upon CPKF's 2019 P/E of \$29.50 and forward Price/Tangible Book Value of \$32.50 as our new valuation.

Current Price (09/12/19) **\$26.60**
Valuation **\$31.00**

OUTLOOK

CPKF's second quarter net earnings rose \$0.4 million, or 14%, year over year to \$3.3 million, while 2019's second quarter diluted EPS increased by \$0.10, or 15%, to \$0.79 from \$0.69 posted. This was better than our estimate, which had called for a \$0.2 million, or 5%, gain in net earnings to \$3.0 million and diluted EPS of \$0.73 (off by \$0.06). The main factors behind the difference between actual results and our estimate were: (1) net interest income that was \$0.4 million more than we had estimated due to a higher net interest margin and (2) a \$0.8 million net gain on securities and a \$0.1 million net loss on OREO, both of which were not included our estimate. These were offset by: (1) compensation costs that were \$0.5 million more than expected due to an extra pay period during the quarter and (2) other miscellaneous expense that was \$0.3 million more than anticipated. The major reasons for the second quarter's 14% increase in net earnings versus the prior-year quarter were a \$1.5 million, or 13%, advance in net revenues partly offset by a \$1.0 million, or 12%, rise in total noninterest expense. We are raising our 2019 and 2020 diluted EPS estimates—for 2019, from \$2.63 to \$2.70, a \$0.09 increase from 2018's \$2.61, and for 2020, from \$2.65 to \$2.70, flat with our 2019 estimate. We recognize that this is down from the prior two years' record earnings growth, but there are a few factors contributing to this reality. Competitive deposit pricing pressures that began in 2018's fourth quarter are expected to continue, reducing net interest margins. Moreover, expenses should increase with the additions of several new hires and a full-service branch later in 2020. On January 18, CPKF approved a 4% quarterly dividend increase to \$0.145 per share. Notably, CPKF has increased the annual dividend payment every year for the past twenty-eight years since 1991. In 2019 for the twelfth consecutive year, CPKF was included in the American Banker magazine list of the "Top 200 Community Banks".

SECOND QUARTER

CPKF's second quarter net earnings rose \$0.4 million, or 14%, year over year to \$3.3 million, while 2019's second quarter diluted EPS increased by \$0.10, or 15%, to \$0.79 from \$0.69 posted a year ago.

This was better than our estimate, which had called for a \$0.2 million, or 5%, gain in net earnings to \$3.0 million and diluted EPS of \$0.73 (off by \$0.06).

The main factors behind the difference between actual results and our estimate were: (1) net interest income that was \$0.4 million more than we had estimated due to a higher-than-expected net interest margin and (2) a \$0.8 million net gain on securities and a \$0.1 million net loss on OREO, both of which were not included our estimate. These were offset by: (1) compensation costs that were \$0.5 million more than expected due to an extra pay period during the quarter and (2) other miscellaneous expense that was \$0.3 million more than anticipated.

We note that in last year's fourth quarter the Company changed its method of presenting merchant card income and expense from separate line items in noninterest income and noninterest expense, respectively, to a single line item, entitled merchant card income, net, in noninterest income. This change had no impact on the bottom line, though noninterest income and noninterest expense are lower than previously reported, both reduced by the amount of merchant card expense. All data in this report have been modified to conform to this new method of presentation.

The major reasons for the second quarter's 14% increase in net earnings versus the prior-year quarter were a \$1.5 million, or 13%, advance in net revenues due to growth in net interest income (up \$0.6 million), net securities gains (up by \$0.8 million) and other miscellaneous income (up \$0.1 million), partly offset by a \$1.0 million, or 12%, rise in total noninterest expense, primarily from greater compensation costs (up \$0.6 million) and higher other miscellaneous expense (up \$0.4 million).

We are raising our 2019 and 2020 diluted EPS estimates—for 2019, from \$2.63 to \$2.70, a \$0.09 increase from 2018's \$2.61, and for 2020, from \$2.65 to \$2.70, flat with our 2019 estimate. We recognize that this is down from the prior two years' record earnings growth, but there are three factors contributing to this reality. First, competitive deposit pricing pressures that began in 2018's fourth quarter are expected to continue, reducing our NIM estimates to 3.94% in 2019 from 4.10% actual in 2018 and by another 4 basis points, to 3.90% in 2020 from an estimated 3.94% in 2019. Secondly, CPKF expects several new hires to add to compensation costs. Finally, the Company expects to add a full-service branch to its network in next year's first quarter, which will also increase expenses. Positively, loan growth is expected to be solid, at 10% in 2019 and 8% in 2020.

On January 18, 2019, Chesapeake Financial Shares, Inc. approved a 4% quarterly dividend increase to \$0.145 per share from \$0.14 per share, effective March 1, 2019. Notably, CPKF has increased the annual dividend payment every year for the past twenty-eight years since 1991. More recently, at its July 19, 2019 meeting, the Chesapeake Financial Shares' Board of Directors declared a 6-for-5 share stock dividend to shareholders of record October 1, 2019, payable on or before October 15, 2019.

In 2019 for the twelfth consecutive year, Chesapeake Financial Shares, Inc. has been included in the American Banker magazine listing of the "Top 200 Community Banks" in the United States. The bank ranked at #107 in the nation out of approximately 601 publicly traded banks and thrifts with less than \$2 billion in assets in the study, up from #148, when CPKF first broke into the rankings in 2008. The ranking is based on a three-year average of return on average equity (ROAE), which for CPKF was 10.59%.

Chesapeake Bank again garnered a top ranking in the American Banker's list of "Best Banks to Work for", moving up to a #19 spot in 2019, out of the 85 banks listed, from a #25 place in 2018.

In other news, the ABA (American Bankers Association) elected Jeffrey M. Szyperski as Chairman. More recently, Chesapeake Financial Shares, Inc. graduated from the OTCQB Venture Market to the OTCQX Best Market, trading on OTCQX under the symbol CPKF.

Below, we discuss second quarter results more fully. Our projections are shown at the back of the report.

Net Interest Income

Net interest income increased \$0.6 million, or 8%, year over year in the second quarter to \$7.4 million (\$0.4 million more than our estimate), as an 8% increase in average interest-earning assets added to a higher-than-expected net interest margin of 4.09%, 1 basis point lower than the 4.10% earned in the year-ago quarter, but 19 basis points above our 3.90% estimate. We note that in 2018's first quarter, CPKF reduced the FTE adjustment due to a lower tax rate associated with the tax reform act. As a result, the net interest margin is also lower than that reported for years prior to 2018.

We have increased our NIM estimate for 2019 slightly to 3.94% from 3.90%, noting that competitive deposit pricing pressures that began in 2018's fourth quarter are continuing. Our 2020 NIM estimate remains at 3.90%. We note that CPKF's balance sheet was asset sensitive at the end of the second quarter, which will likely expand the net interest margin in a rising interest-rate environment, but could hurt should interest rates fall.

Noninterest Income

Noninterest income rose \$0.9 million, or 20%, over year to \$5.6 million (\$0.7 million above our \$4.9 million estimate), largely due to a \$0.8 million net gain on securities and a \$0.1 million increase in other miscellaneous income. Most other line items also showed some improvement, except net merchant card income, which experienced a small decline of \$39,000.

With expanded merchant card processing operations, we expect steady growth in this business throughout the next couple of years. Moreover, the cash flow business has been generating solid receivables growth recently that should benefit revenues over the next couple of years.

Loss Provision

The loan loss provision was flat year over year at \$175,000, and was the same as our estimate. Loan loss reserves rose \$0.5 million year over year to \$5.4 million (1.00% of loans), which was above the first quarter's loss reserve of \$5.2 million, or 1.00% of loans, and above the \$4.9 million (1.00% of loans) posted in the year-ago quarter.

Including the loss allowance for cash flow receivables, the total loss allowance rose \$0.4 million to \$7.0 million (1.23% of loans plus cash flow receivables) compared with \$6.8 million (1.22% of loans plus cash flow receivables) at the end of the previous quarter, and was above the \$6.6 million (1.26% of loans plus cash flow receivables) at the end of the comparable year-ago quarter.

As to other asset quality measures, CPKF recorded \$11,000 of net charge-offs in the second quarter. This compares to net recoveries of \$20,000 in the year-ago quarter and net recoveries of \$75,000 for the full year in 2018.

We are maintaining our estimate of the loss provision at \$700,000 for 2019. This compares with an actual loan loss provision of \$525,000 in 2018. Our estimate for the 2020 loss provision remains \$800,000.

We project that the total loss allowance will fall slightly to 1.16% of total loans plus receivables at yearend 2019 and to 1.10% at the end of 2020. This compares to 1.22% at the end of 2018.

Noninterest Expense

Noninterest expense advanced \$1.0 million, or 12%, to \$9.1 million (\$0.8 million more than the \$8.3 million we had projected) from the prior-year quarter, primarily stemming from a \$0.6 million, or 13%,

increase in compensation expense due to an extra pay period during the quarter and a \$0.4 million, or 17%, rise in other miscellaneous expenses.

The efficiency ratio deteriorated, rising to 74.4% from 70.3% in the year-ago quarter, and was worse than the first quarter's 68.7%.

We project that compensation costs will increase from \$19.4 million actual in 2018 to \$21.2 million in 2019 and \$22.6 million in 2020. Our estimate of noncompensation costs is \$14.2 million in 2019 and \$14.0 million in 2020, compared to \$13.9 million actual in 2018. Our estimate of the efficiency ratio is 74.6% in 2019 and 72.7% in 2020 compared to 72.7% actual in 2018.

Income Taxes

The Company had a 13.3% effective tax rate in the second quarter, a 1.2-point increase from 12.1% in the year-ago quarter. This compares to our estimate of an effective tax rate of 13.0%.

We are maintaining our estimate of the effective tax rate for 2019 at 13%, and keeping it at 13% for 2020. This compares to a full-year effective tax rate of 11.3% in 2018.

Net Income

CPKF's second quarter net earnings rose \$0.4 million, or 14%, year over year to \$3.3 million, while 2019's second quarter diluted EPS increased by \$0.10, or 15%, to \$0.79 from \$0.69 posted a year ago.

This was a better than our estimate, which had called for a \$0.2 million, or 5%, gain in net earnings to \$3.0 million and diluted EPS of \$0.73 (off by \$0.06).

Profitability

CPKF posted a 13.1% ROE and 1.44% ROA for the second quarter of 2019, compared to 13.0% and 1.43%, respectively, in the prior-year quarter.

Loans and Asset Quality

Gross loans increased \$45 million, or about 9%, year over year, and rose \$15 million, or 3%, sequentially to \$538 million.

By category, commercial real estate loans increased \$9.5 million, or 4%, to \$231 million; commercial and industrial rose \$5.4 million, or 6%, to \$96 million; 1-4 family gained \$1.5 million, or 1%, to \$134 million; and other loans advanced by \$0.3 million, or 1%, to \$32 million. Negatively, construction and land development loans fell by \$1.4 million, or 4%, to \$34 million; cash management receivables decreased by \$0.6 million, or 2%, to \$34 million; and consumer fell by \$0.5 million, or 5%, to \$10 million.

We estimate combined loan and receivables growth of 10% in 2019 (up from 8% previously) and of 8% in 2020. This compares to actual growth of 4% in loans and receivables in full-year 2018.

Asset quality measures improved during the second quarter. Total nonperforming assets fell \$0.6 million to \$9.0 million from \$9.6 million sequentially. Other real estate owned decreased \$0.3 million to \$2.3 million from \$2.6 million. There was no change in restructured loans, which remained at zero. Nonaccrual loans decreased by \$0.3 million to \$6.7 million from \$7.0 million.

In total, nonperforming assets (NPAs), including troubled debt restructurings that are current in payments, decreased 15 basis points to 1.56% of outstandings + OREO at June 30, 2019 from 1.71% of outstandings + OREO at March 31, 2019, but rose 8 basis points year over year from 1.48%.

The loss allowance as a percent of nonperforming assets increased to 78% from 71% sequentially, as there was improvement in nonperforming assets, while the loss reserve for loans plus cash flow receivables increased.

Liquidity and Funding

Cash and equivalents decreased by \$2 million to \$50 million at the end of the second quarter, while the securities portfolio rose \$49 million to \$265 million. By category, US government-related securities rose \$13 million to \$35 million, the private-label mortgage securities portfolio increased \$10 million to \$51 million, and the municipal securities portfolio rose by \$2 million to \$155 million. For the first time during 2019's second quarter, CPKF invested in asset-backed securities (primarily student loans under the FFELP program), which added \$24 million to the securities portfolio.

On a relative basis, the private-label mortgage securities portfolio was 19% of the entire available-for-sale securities portfolio, US government-related securities were 13%, municipal securities portfolio were 59%, and asset-backed securities were 9%.

CPKF's liquidity ratios were up compared to the previous quarter. At June 30, 2019, liquid assets represented 9% of total assets (8% at the end of the first quarter) and covered purchased funds by 158% (up from 146%), while loans plus receivables accounted for 61% of total assets (down from 62% at March 31, 2019).

Core deposits rose by \$35 million sequentially to \$765 million and funded 134% of loans and receivables.

Capital Adequacy and Dividends

The Company's capital adequacy ratios decreased during the second quarter, as growth in risk-weighted assets outpaced growth in capital. The Tier 1 capital ratio fell 29 basis points sequentially to 14.62% at the end of 2019's second quarter from 14.91% at March 31, 2019, while the Total capital ratio declined 30 basis points, slumping to 15.65% from 15.95%.

Total shareholders' equity gained \$4.1 million during the second quarter, as a \$2.2 million advance in retained earnings added to a \$1.9 million gain in accumulated other comprehensive income.

Reflecting these factors plus a 3,200 increase in common shares outstanding, tangible book value per share rose during the second quarter, by \$0.99 per share to \$24.79 from \$23.80. The total equity to total assets ratio worsened slightly, decreasing by 4 basis points to 10.91% from 10.95%, as growth in assets outstripped growth in total common shareholders' equity.

OVERVIEW

Chesapeake Financial Shares, Inc. (CPKF or the Company) is a financial holding company headquartered in Kilmarnock, Virginia, with \$934 million in total assets at June 30, 2019. CPKF is predominantly a small business lender with 15 branch offices and one loan production office that serve customers in the eastern region of Virginia between the Potomac and James Rivers. CPKF, which began as Lancaster National Bank on April 13, 1900, has a long history and strong ties with the communities it serves.

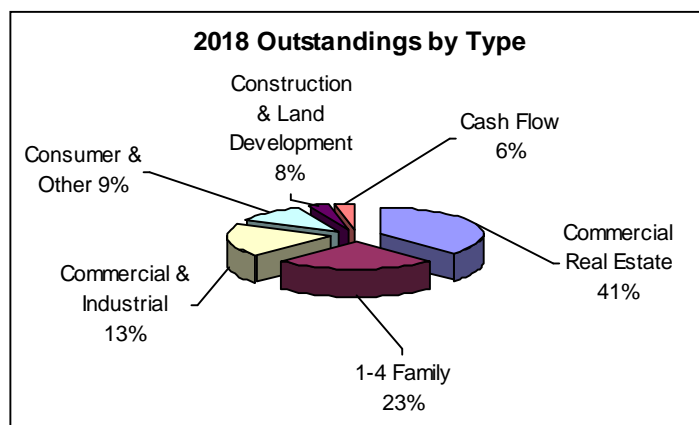

Operations are carried on through Chesapeake Bank, a state-chartered bank as well as Federal Reserve and FDIC member bank, and Chesapeake Wealth Management, an independent wealth management firm with trust powers that manages about \$395 million in assets (at 2018 yearend) through its subsidiaries involved in asset management (Chesapeake Wealth Management is a registered investment adviser), brokerage, and trust services. Other activities of the Company include Chesapeake Payment Systems, Cash Flow program, and its secondary market mortgage banking operation.

Chesapeake Payment Systems offers merchant processing services such as credit card and debit card processing, electronic benefits transfers, and loyalty and gift card processing to companies involved in travel, entertainment, restaurant, hospitality, retail, mail order, and e-commerce. At yearend 2018, Chesapeake Payment Systems had 588 direct merchants in its system and processed over \$527 million

in merchant card transactions. In addition, Chesapeake Payment Systems has also partnered with four independent sales organizations (ISOs) to expand its processing footprint.

The Cash Flow program, which provides an attractive financing option to growing businesses, involves the purchase of the client company's accounts receivables. The Cash Flow program is currently offered in the Eastern half of the United States and had 67 customers at the end of 2018.

Through Chesapeake's secondary market mortgage banking operation, the Company services a \$235 million loan portfolio (as of December 31, 2018) of residential mortgage loans for Federal Home Loan Mortgage Corporation (FHLMC or Freddie Mac), for which it earns a 25 basis-point fee (approximately \$575,000 annually) on the outstanding loan portfolio balance. Additionally, CPKF earns a pare-off fee for residential mortgage loans that are originated and closed with FHLMC, which added \$582,000 to revenues in 2018 (both types of fees are included in other noninterest income in the Company's financial statements).

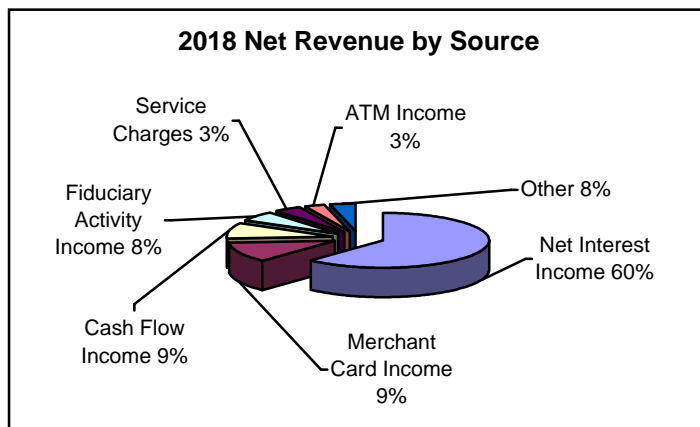

The lending portfolio is dominated by real estate loans, as shown in the chart at left. At December 31, 2018, the lending book consisted of commercial real estate (accounting for 41% of total gross outstandings), 1-4 family (23%), commercial and industrial (13%), consumer and other (9%), construction and land development (8%), and cash flow (6%). A majority of loans are secured, usually by real estate, inventory, accounts receivable, equipment, machinery, or corporate assets.

At December 31, 2018, the liquidity portfolio, which consists of cash, short-term investments,

federal funds sold, and US agency mortgage obligations, represented about 9% of total assets and 12% of the securities portfolio. In addition, the available-for-sale portfolio includes municipal and private label mortgage securities, which accounted for 71% and 17%, respectively, of the total. Core deposits represented 94% of total deposits at December 31, 2018, with certificates of deposit larger than \$250,000 at 6%.

In 2018, net interest income contributed 60% of net revenue, with a significant 40% coming from noninterest income sources. Major contributors to noninterest income include merchant card income (9% of net revenues), cash flow income (9%), income from fiduciary activities (8%), ATM income (3%), and service charges on deposit accounts (3%).

VALUATION

CPKF stock is up 8.4% year to date, a slightly worse performance than the 11.0% median price increase for the small-cap bank industry, and also below the 20.1% price gain for the S&P 500, as shown in the following table.

At its current price, CPKF is trading at a discount to the industry median P/E of 8%, based upon our current CPKF EPS estimate for 2020. Assuming a small-cap bank industry valuation of 10.8 X for 2020, CPKF's target price based upon our 2019 EPS estimate is about \$29.50.

Turning to Price/Tangible Book Value, CPKF is currently valued at 1.07X. Assuming an industry multiple of 1.19X based upon our estimated book value or CPKF twelve months out, our target price is about \$32.50, which compares to CPKF's current book value of \$24.79.

We have chosen the \$31.00 midpoint of the range of values based upon CPKF's 2019 P/E of \$29.50 and forward Price/Tangible Book Value of \$32.50 as our new valuation.

HISTORICAL STOCK PRICE

DISCLOSURES

The following disclosures relate to relationships between Zacks Small-Cap Research (“Zacks SCR”), a division of Zacks Investment Research (“ZIR”), and the issuers covered by the Zacks SCR Analysts in the Small-Cap Universe.

ANALYST DISCLOSURES

I, Ann H. Heffron, CFA, CPA, hereby certify that the view expressed in this research report accurately reflect my personal views about the subject securities and issuers. I also certify that no part of my compensation was, is, or will be, directly or indirectly, related to the recommendations or views expressed in this research report. I believe the information used for the creation of this report has been obtained from sources I considered to be reliable, but I can neither guarantee nor represent the completeness or accuracy of the information herewith. Such information and the opinions expressed are subject to change without notice.

INVESTMENT BANKING AND FEES FOR SERVICES

Zacks SCR does not provide investment banking services nor has it received compensation for investment banking services from the issuers of the securities covered in this report or article.

Zacks SCR has received compensation from the issuer directly, from an investment manager, or from an investor relations consulting firm engaged by the issuer for providing non-investment banking services to this issuer and expects to receive additional compensation for such non-investment banking services provided to this issuer. The non-investment banking services provided to the issuer includes the preparation of this report, investor relations services, investment software, financial database analysis, organization of non-deal road shows, and attendance fees for conferences sponsored or co-sponsored by Zacks SCR. The fees for these services vary on a per-client basis and are subject to the number and types of services contracted. Fees typically range between ten thousand and fifty thousand dollars per annum. Details of fees paid by this issuer are available upon request.

POLICY DISCLOSURES

This report provides an objective valuation of the issuer today and expected valuations of the issuer at various future dates based on applying standard investment valuation methodologies to the revenue and EPS forecasts made by the SCR Analyst of the issuer’s business. SCR Analysts are restricted from holding or trading securities in the issuers that they cover. ZIR and Zacks SCR do not make a market in any security followed by SCR nor do they act as dealers in these securities. Each Zacks SCR Analyst has full discretion over the valuation of the issuer included in this report based on his or her own due diligence. SCR Analysts are paid based on the number of companies they cover. SCR Analyst compensation is not, was not, nor will be, directly or indirectly, related to the specific valuations or views expressed in any report or article.

ADDITIONAL INFORMATION

Additional information is available upon request. Zacks SCR reports and articles are based on data obtained from sources that it believes to be reliable, but are not guaranteed to be accurate nor do they purport to be complete. Because of individual financial or investment objectives and/or financial circumstances, this report or article should not be construed as advice designed to meet the particular investment needs of any investor. Investing involves risk. Any opinions expressed by Zacks SCR Analysts are subject to change without notice. Reports or articles or tweets are not to be construed as an offer or solicitation of an offer to buy or sell the securities herein mentioned.
